December 6, 2022

The Honorable Steven Dettelbach  
Director  
Bureau of Alcohol, Tobacco, Firearms and Explosives  
Washington, DC 20226

Dear Director Dettelbach:

Yesterday, the Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) notified us that it intends to destroy the firearms associated with the botched Operation Fast and Furious. I strongly urge you to reconsider this decision and request that you preserve this evidence.

In Operation Fast and Furious, ATF agents under the Obama-Biden Administration allowed federal firearms licensees to sell firearms to known or suspected straw purchasers.<sup>1</sup> These decisions had deadly consequences. Two firearms that were allowed to “walk” during Operation Fast and Furious were found at the crime scene where U.S. Border Patrol agent Brian Terry was murdered.<sup>2</sup> Numerous other firearms were found at crime scenes on both sides of the southern border.<sup>3</sup>

Although the ATF apparently intends to forget its dangerous misconduct in Operation Fast and Furious, the scandal is still a matter of public concern. In fact, earlier this year, prosecutors in Mexico charged seven individuals with crimes related to Operation Fast and Furious, including Mexico’s former top police official and a former Mexican Federal Police commander.<sup>4</sup> Given the potential for ongoing criminal and possible civil actions, it is not in the interest of justice for the ATF to destroy potential evidence associated with Operation Fast and Furious. I request that you immediately take steps to preserve all evidence associated with Operation Fast and Furious and confirm in writing that you have done so.
